Hello Ron:

Thank you for your June 24, 2011 letter that we received via e-mail message on June 21, 2011. I just have a few comments on your letter.

- **Soil samples.** I like to see more than one sample of soil. Please propose the number of samples after consulting the USEPA SW-846 guidance or 40 CFR 761, Subpart N on sampling of soil that is in containers.
- **Field quality control samples.** Describe and indicate how many field quality control samples will be collected.
- **Volatile organic compounds.** Should the soil be tested for the VOCs that were detected in soils at the site?

Please let me know if you have any questions concerning this message.

Sincerely,
Carmen

Carmen – Can you please review the attached draft of the sampling plan for the soil to be imported for use in the landscaped areas at the Aspire school site and let me know if it will work for the project?

Thanks Ron.
